

GURUGRAM POLICE SENSATIZATION PROGRAM

28TH December 2019

GURUGRAM POLICE SENSITIZATION WORKSHOP

Recent spate of missing special need children caught our attention as the entire parent community was disturbed. It is very important to have an active, alert sensitised community to look after the welfare of persons with special needs as if left alone to fend for their own becomes a daunting task for parents. With this objective in mind we recently conducted a sensitisation workshop of the Gudgaon Police force. It's going to be the first of the series. We have also roped in several other organisations of Gudgaon to work along with us as the Nodal Agencies. The main objective of all these nodal agencies would be to become the eyes, ears and hands of our police force. Let's make a strong community where each and every child with special needs is looked after... not only by his/ her parents but the entire community! Towards safer world!
